fenice

Fenice is the bed which effortlessly brings together aesthetics and function in a triumph of finesse. The slightly tilted headboard provides a highly comfortable posture for reading and, obliquely inclined as it dovetails with the bedframe, it also creates an elegant geometric detail.

features

by Bernhardt&Vella

Padded bed available in various sizes. Also equipped with bedspring. Metal corner feet that enhance the structure's solidity and aesthetic appeal. The storage-space opening mechanism allows for two possible positions: in the first position, the bed can be made without having to bend down; the second position allows for arranging objects and bed linen in the storage compartment without any hassle.

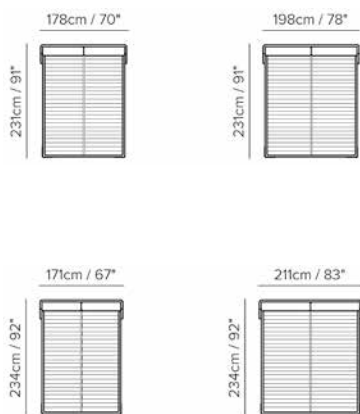

Padding

Feather and polyurethane-padded headboard.

Coverings

Upholstered in removable fabric or premium Natuzzi leather.

Here are some suggested arrangements.

fenice

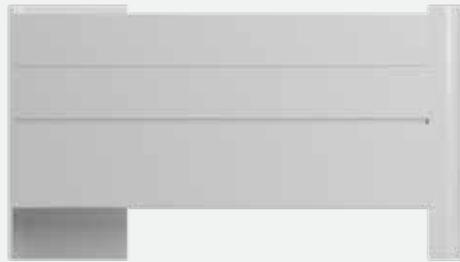

Bedside tables from the **Fenice** collection. Fine design watches over you.

Fenice bedside table shown in a chalk-white glossy lacquered finish.

Bernhardt & Vella An alliance forged in Milan in 2008 which pools the wide experience and fervid creativity of Ellen Bernhardt and Paola Vella. Their diverse background embraces a broad sweep of design areas and bears witness to an unusual depth of professional knowledge, ranging from industrial product design and visual communication to interior decor.

fenice

Asymmetry, breeziness and formal restraint. A dream of a chest of drawers.

Fenice chest of drawers shown in a chalk-white glossy lacquered finish.
